The public everywhere is encour. aged through the press to feed the birds during the continued snow, when they can find nothing to sustain life. Miss Mary Fitzsimmons, teacher in room No. 4, is laid off from school work with blood poison, supposed to have originated from colored crayons at the blackboard.

E, M. Slagle and wife of Green township entertained the Twilight club from Salem Saturday evening. They came in sleds and were given an oyster supper, enjoyed games, mu-sic and other social diversions.

Charles Douglas Dubbs, a native of Greenford, died in the Salem city hospital following an operation, at 1:30 Sunday morning, aged 51 years. Remains were taken to Lisbon on the 12 o'clock Y. & O. car for interment.

The mining outlook for Washingtonville is not to say very brilliant at this distance. They are taking up rails at the clay plant, and they think it will be worked out by the first of April. The Peerless coal mine is also an uncertain quantity.

Here are some appropriate quotations for the "lost cause" in Mahon-ing county: "I told you so;" then we have "All is lost save honor." Then the school girl will recite "Curfew must not ring tonight," and somebody will quote Henry Clay in saying "I would rather be right than be

There will be no more failures in the apple orchards. Men now know how to spray the trees, and to fire apples worth from 50c to \$1.25 a bushel he will be well paid for three days' or night's work.

The Lectonia Dramatic club is pre paring to present another play St. Patrick's day, March 17. The title of this coming attraction is "Kathleen Mayourneen," a drama which gives a realistic depiction of Irish life in the Emerald Isle. A good cast has been made up and no effort will be spared by the members and Director C. H. Martin to present an entertainment that will be well worthy of pat-

ronage. Of the 1600 prisoners in the Ohio penitentiary 27 have had a college education, 103 passed through high 945 through the grade schools, 263 can barely read and write, 46 cannot read, and 223 are without any education at all. There are 18 Jews, 536 Catholics, and the balance of the various Protestant denominations. One is an Indian and 62 are colored. It is painful to note that a majority of the prisoners are between the ages of 20 and 30, and the next largest number is between the ages of 30 and 40. Eight are unand 16 between 60 and 70 The above statistics have been gath ered by Rev. F. L. Kelley, the Catholic chaplain, who is now building a prison school by convict labor.

The Peerless mine is temporarily suspended. Last Thursday afternoon there was a huge cave in of quick sand along the main slope entry which imprisoned the miners and the mules for several hours, until by hard work during the greater part of the night the entrance to the air course was reached and the men were taken out by the aid of ropes. The formation of the soil is such that the cave in extends to the surface, some forty feet above. The accident was caused by the breaking of a draw-bar on a train of loaded crs, letting eight cars back into the mine with such force as to leave the track at a curve and several supporting timbers which had upheld the roof for many The cars were completely buried and the entrance was blocked for many yards on either side. This is one of the Card & Prosser mines, and is said to have had an output of

about 200 tons a day. According to the poet Whittier, Monday was "the day for which all other days were made." The weather was not favorable for out-door asure, and would have been a rea sonable excuse to stay at home from prayer meeting, but not so with the wet and dry forces of old Mahoning county when the Rose county option election was being held. Gilbert's om was used as the polling place of the 2nd precinct of old reliable Green township. James A. Matzenbaugh, David Klingensmith, Homer Dunn and Homer Heintzelman served as judges; Otls Rhodes and Roy Grim were the clerk;s 53 votes were polled with 35 dry and 18 wet. The north precinct of the village voted in Harvey Baker's west room, with Roland Woods, T. H. Holland, W. E. Roller woods, T. H. Holland, W. E. Roller and J. L. Fitspatrick as judges; Elmer Intermill and Harry Stouffer as clerks and J. W. Possage as challenger; 58 votes were polled, 26 dry and 32 wet. The total vote at both polling places was 111, 61 being dry

As bad as Youngstown is reported to be, she had more dry votes to her credit on Monday, in proportion to her population, than Washingtonville, Miss Clara L. Moore, daughter of

the late Abram Moore and wife(nee Cameron of Carrollton) died of consumption at the home in Lisbon at clock Monday forenoon, aged 35. Mrs. Sarah E. Klingensmith is se-

riously ill at the home of her daughter, Mrs. Harold Everett, near Courtland, Trumbull county. Her son David pays frequent visits to her bedside. During Monday's blinding snow storm a half dozen blue jays calmly perched upon the trees in Mrs. Taylor's lot and twittered their notes of approaching spring. Then they flew under the eaves of the house and drove the English sparrows from their hiding places.

The Coal Mining Review is a wide-a-wake industrial journal, edited by T. L. Lewis, who recently said: Anti-Trust legislation is receiving the serious attention of the federal law makers at Washington. There is such a thing as having too much law and it is just possible that the law which regulates Trusts may annihilate a labor union."

There don't appear to be anything small with the present administration when it comes to providing for the U. S. postoffice department. The senate passed Saturday a bill to appropriate \$311,492,067, an increase of nearly ,40,000 over the bill sent in from the house. It also provides for an increase of \$100 a year on R. D. carriers, and substitutes were raised 30 to 40 cents an hour.

The grand jury of Jefferson county returned 711 indictments, Among these are 38 against James Wilson of Bergholz for selling to minors; R. Smith of Bergholz, 4 indictments, same offense; three saloon keepers of Dillonvale were indicted. Dr. H. Davis of Steubenville and Dr. L. D. Allen of Amsterdam were indicted for selling forbidden drugs. There

were 24 counts against Dr. Davis, Next Sunday personal workers from over the county will meet in Lisbon for the purpose of creating interest in the work over the county and it is how to spray the trees, and to fire in the work over the county and it is the orchard on a cold day or night. expected that a large number will be Orchard heaters, oil stoves, smudge present. > The "drys" held two well-attended meetings here on the eve of the Rose option election in Mahoning county Rev. George Brown's illustrated lec ture in town hall Thursday night filled the hall to its capacity and the speaker held his audience for nearly two hours. It was announced in the E. Church Sunday forenoon that W. Boles of Canton would lecture on temperance at night, but in his stead came Rev. W. G. Walters who delivered an interesting discourse along Anti-saloon lines and took an optimistic view of the result of Monday's election if Christian people would all vote as they pray.

There appears to be a general up rising against any change being made in our country's flag-the flag for which the northern soldiers fought, bled and died; the flag of Lincoln and the freedom of four millions of slaves It is a national insult to talk of substituting the Confederate stars and bars for "old glory." All our patriotic oratory and national airs would have to be changed or stricken out.

The large new barn on the Frank C. Armstrong farm, north of Elkton, was burned to the ground at 3 o'clock Sunday morning. Seven head of cattle, two horses, four shoats, 25 to 30 tons of haled hay, 400 bushels of oats, 20 bushels wheat and all the farm machinery in the barn were burned. The estimated loss is about \$3,200 with insurance of \$1,700 on the building, \$400 on live stock and \$400 on machinery.

The village council convened monthly session Tuesday night with all members present, in cluding the mayor and clerk. short session was held and but little business was transacted, as'de from the payment of bills. county will be on their good behavior for the coming three years; but if they are all as harmless as the one in Washingtonville there will be no It has been recently decided that

where school teachers are injured or incapacitated in the regular discharge of their duty they can claim dam-ages under the newly enacted compensation act.

The East Liverpool Tribune joices over the small wet victory in Mahoning county and predicts that in three years hence there will not be a newspaper in Ohio that will dare to publish "wet stuff." Let us forget the election, and "remember the Maine."

Mahoning county voted wet last Monday by only 257 majority, and it is claimed that more than that number stayed at home by reason of the snow blizzard, nine of them were absent here. Four years ago the ma-jority was 1931. At this rate Ohio can be made dry in two years.

Saturday was the last day of the open season for raccoons. Muskrats, minks and opossums are the only game that can be legally killed after that date. There is no law protect ing the opossum or the mink. The mink is considered an outlaw and may be killed at any time in any way, Lest we forget, just let us remem-ber the drunken, disorderly, riotous whooping and howling in Lisbon four months ago when we had saloons and compare conditions with the quiet, orderly times under local prohibition. Men who under the old wet times were drunken and worthless are now working and supporting their families.—Lisbon Patriot.

There was a sale of high class Jerseys on the A. M. Carr farm last est priced cow sold for \$400, and the highest price calf for \$155. Carrollton voted last year to build a new \$50,000 school house and issued bonds for that amount. When the building was less than half completed the contractor went into bankruptey and the company that bonded the contratcor is said to be in the soup for \$14,000. The town will hold another election to issue \$8,000 more bonds to complete the job. This is worse than the Washingtonville job, for here we have a good school building, even if the flues don't draw and the school treasury is low. There they have plenty of money, a big duplicate and

have no school building. A two column editorial appeared in the Springfield Daily News of Sunday, February 22, favoring Hon. John L. Zimmerman as Clark county's man for United States Senator. We say 'Amen" to every word in that editorial, not only because John L. was born near Washingtonv'lle but cause he had proper training in his youth and when he grew to manhood ne did not depart from it. And we pine that if his friends can make him as well and favorably known throughout Chio as he is here, there need be no further political anxiety, and that the Buckeye state will be both ably and conscienciously repre sented at Washington, D. C.

This village was officially "dry" or Monday, by order of Mayor Stouffer and Sheriff Umstead; yet no more than the usual number of persons went to Leetonia and Salem that day. Some were subpoensed to Lisbon or the Allen-Roth lawsuit that day, but Lisbon, you know, is officially dry for the next three years, and nobody pears to care. For modern civiliza-tion appears to be made up of a serles of fads, whether it be in swatting the fly, vaccinating for all purposes from toothache to corns, the tango dance, the slit skirt, men with their hair parted in the middle and a bow on the back of their hats; drinking hot toddies for a cold and a straight whiskey when it is 90 in the shade Supt. Among the items contemplated for this year is the planting of 250 trees of standard varleties to take the place of the old trees in the orchard which are dying: all the old fences about the farm are to be torn out and new ones built, painted white, placed about the pas tures, orchards and gardens. number of inmates now in the institution is 105, 75 of the number being men and 30 women. In view of the fact that enormous amounts of food stuffs are required to maintain the farm, Superintendent McCammon pects this year to farm at least 100 acres for the spring crops, by renting 50 adjoining acres. Last year the 1.00 farm produced 1,376 dozen 4.10 1,990 pounds of butter, 10,332 pounds of dressed beef, 10,560 pounds 7.28 dressed pork, 100 tons of hay, 2,000 7.28 bushels ear corn, 5,000 bundles of corn fodder and other necessities, valued \$78.11 as a whole at \$8,688.95.

The trial of Allen vs. Roth before Judge Moore and a jury has about worn out the patience and endurance of both court and jupors. "I object," said one attorney. "Sit down or I'll swat you one," said the Judge. "Please note an exception" said another limb of the law as he dodgexception" said ed behind a pile of Ohio State Re ports. "We'll carry the case to the court of appeals, your Honor." "You You lawyers who never had a case before, don't know how to carry anything." Allen lost his case, as the jury re-turned a verdict for Roth. Clark Firestone of Lisbon, republi-

can candidate for congress in this district, is some authority on the matter of good roads and is an enthusiast for the Lincoln Highway. He has made the subject of good roads in other counties an earnest study. In

Bergholz voted dry Tuesday by a ing he referred to the road which the Incas built along the plateaus of Miss Marie Welkart was assistant South America for a distance of 3500 miles and said this was the statellest of all thoroughfares that The jury in the Allen vs. Roth case preceded the Lincoln Way. This asdecided the case in 20 minutes. There sertion was made on the authority of certain manuscripts of Spanish explorers, which have never been published, but translations of which are on file at Washington, A. R. Pardington, secretary of the national Lincoln highway association, who had read Mr. Firestone's speech, sent to him last Thursday a report from the illfated explorer's expedition into the South American wilds, which confirms the reference in his recent address. These explorers, two of whom were devoured by cannibals, not only liscovered three pre-Inca cities, but they found 1500 miles of the paved road whose existence Mr. Firestone had asserted, but which had heretomonia. Miners In District Meeting.

Alliance, March 4.-Representaives of 28 locals, with a membership of 2,500 miners in the various towns comprising the district which includes Columbiana, Mahoning and Jefferson ounties, reached this city Tuesday and are now in attendance at the twentleth annual convention of subdistrict No. 4 of district No. 6 of the Inited Mine Workers of America. That a better day is coming for

nine workers is the belief of President John Saxon of Salineville, who in his annual report reviewed progressive legislation during the past year in behalf of the miners of the state especially for their protection in the mines, and on the workmon's compensation act, by which the min ers, in his opinion, have and will be immeasurably benefited. Organization and its power to help the miner were dwelt upon by Mr. Saxton, and he struck the keynote of the convention in discussing the advantages of the freen anti-screen bill, passed by the last legislature.

Reports show that the organization has added a number of members to its ranks during the past year, that one new local was organized at Rogers, and that the outlook for the coming year is very encouraging, ooking to a larger and more efficient ganization *hrough the district.

The election of officers, one of the chief features of Tuesday's session, resulted as follows: President, John Saxton, Salineville, re-elected; vice president, John M. Paplo, Bergholz; secretary-treasurer, W. A. Savage, Amsterdam, re-elected. The executive board was re-elected, composed of the following people: Fred Tol-iston, Salineville; John Crumley, Amsterdam; Frank Sutton, Amsterdam James Starkey, Salineville, and J. M. Allintz, Salineville, were elected on the auditing board. George Lucas, who has noved cut of the district, was re-elected, but a new member will be selected later to take his
